Favorite Triangle

Susi likes to create a simple program that draws many kinds of shapes. Now she wants to challenge her friend Bob, to create her favorite triangle. Susi's favorite triangle is the Isosceles Triangle.

Format Input

The Program will ask for number N to indicate the size of the triangle. N must be *Odd Number*.

Format Output

Print an inverted isosceles triangle of size N that starts with a base of N asterisk and narrows to a single star at apex.

Constraints

- $1 \leq N \leq 99$
